

To: All VSCCA Members

February 2, 2010

From: Bob Klingenburg, VSCCA Activities Chairman

Dear Friends,

Last month we told you about all of the things that our club has planned for you in the coming year. I think it would be fair to say that it is quite an ambitious schedule for a club comprised completely of volunteers. All of the people who give of their time to this wonderful club, from Event Chairmen, to Tech Inspectors, members of all of the Committees, as well as all of the spouses and friends who support these people, do so for nothing more than the love of the club. The result is a club that offers a great deal of friendship and camaraderie, in addition to all of the eclectic events that comprise our schedule.

Our Club clearly does much for all of us. This month we would like to suggest that each of us ask ourselves what we can now do for our club. The answer can vary according to each person's time and desire. But I would like to suggest a way that we can all help right now.

Our club is not for everyone. But there are many people out there who would be excellent candidates for membership, bringing additional friendship and camaraderie to all of our events. This is especially true at this point in our clubs history, as we have recently opened up the clubs events to participation by a much wider group of cars than before, including cars through the sixties, Corvettes and sedans.

But our club does not advertise, nor engage in any dissemination of information about our club beyond our membership mailings. So the word about all of the benefits of our club, and in particular how those benefits are now available to a much wider group, may not be reaching all who might be interested.

As we have said, we are our best ambassadors. We are all car people. That means we all know other car people. We have three events coming up in the very near future that are the best ones with which to introduce new people to our club. A tech session is one of the best ways to meet everyone in the club and decide whether membership would be a good fit. There is one coming very shortly, toward the south in the Philadelphia area at David Georges' shop, and then one in March, in New England at JR Mitchells' shop. And our school at Pocono is a must for every new member who wishes to participate in speed events with the club.

Enclosed in this mailing is the announcement for the Southern Tech Meeting, the Northern Tech Meeting, and Pocono, which hosts the VSCCA's school. Also enclosed in this mailing are an application form for membership in the VSCCA and an event entry form for Pocono.

Please think of at least one person that you know who might be a suitable candidate for membership, and go to them with the above mentioned pages in hand and ask that they fill them out and send them in. Even if they do not yet have the vintage car that they have been dreaming about, any reasonable (newer) car may be used for the school. Only your brief letter of recommendation is needed to accompany their application. Entry may be made immediately for Pocono without waiting for membership acceptance.

Then go with them to at least one tech meeting and the school at Pocono. Do so, and you have helped your club, by enriching the environment at our events for us all.
