

Dear VSCCA members,

We are less than two months away from one of the most important Mt. Equinox Hill Climbs ever. This year, Bill Milliken and John Fitch will join us for the sixtieth celebration of the first time the Mt. Equinox Hill Climb was ever run. In commemoration of the event, all participants will receive a special dash plaque, laser etched on the back with a unique number. The badge is a replica of the first dash plaque given out by the SCCA in 1950, incorporating VSCCA elements. I had many owners of non VSCCA eligible cars telephone me to register for this event. proving it's special status in amateur racing. The late fee deadline is July 20th.

As the VSCCA website is still experiencing some difficulties, if you are interested in attending, please email me for an entry form: [dogedoc@me.com](mailto:dogedoc@me.com)
